Shared Care Process (RTC)

```
Titration Complete (PUK)
```

```
Psychiatry UK (PUK) sends Shared Care Agreement and End of Titration
clinic letter to GP (via Docman/email)
```

```
GP Reviews Request
```

GP Response (within 28 days)
1. Accept Shared Care
2. Decline Shared Care
3. Accept with Caveats

If no GP response (within 28 days):
* PUK contacts GP Practice
* Prescribing continues to avoid treatment gaps

✅ **Shared Care Accepted**

❌ **Shared Care Declined or Withdrawn**

* GP issues repeat prescriptions and monitors BP, pulse, weight (6-monthly)
* PUK conducts annual reviews
* GP may request early review or advice at any time

In some NHS contracts, once stable, patient is discharged to local ADHD service

Shared Care Declined:
* PUK continues prescribing and ongoing reviews

Shared Care Withdrawn:
* GP sends patient's medical summary and recent prescription data to: clinical-admin@psychiatry-uk.com
* PUK informs patient and resumes patient's care
